

LIBERCHEM

YOUR TEMPORARY PRODUCTION LICENSE IS ENDING, DO YOU HAVE A PLAN B ?

We offer to support your products with DIN and NPN accreditation. Production will take place in an environment that meets Health Canada requirements.

We carry out the production and packaging for you. Above all, we offer you support in accordance with the regulations.

We take care of the testing of the raw material and finished products, as well as the maintenance of the batch records.

LIBERCHEM has held an establishment license issued by Health Canada since 2014, for manufacturing, packaging, and distribution.

Possibility of producing different types of products: liquids, wipes, powders.

We also hold several DIN and NPN formulations, which we can produce under private labels. Competitive prices and good production capacity.
