ALKA-500

CONCENTRATED ALKALINE DETERGENT
FOR MILKING ROBOT

ALKA-500

CONCENTRATED ALKALINE DETERGENT FOR MILKING ROBOT

ALKA-500

Designed to clean dairy equipment and milking robots. Concentrated detergent, designed for high-temperature washing of milking robots. Combined with chlorine or peroxide when washing conventional systems, it is ideal for hard water and difficult-to-clean systems. Concentration of 30 ml per 22 L of water (1 oz per 6 gal.).

BENEFITS :

Concentrated detergent, it is active in hot water, Ideally combine it with an injection of Peroxeur or chlorine. The raised alkalinity combines with surfactants, destroys fat deposits and proteins.
