

LC-2010

INDUSTRIAL CLEANER DEGREASER WITH SOLVENT MIXTURE

LC-2010

INDUSTRIAL CLEANER DEGREASER WITH SOLVENT MIXTURE

LC-2010 is a powerful, highly concentrated neutral cleaning/degreasing solvent blend designed to remove grease and oil deposits used in mechanical bearings during maintenance. It is also suitable for degreasing frames, industrial machinery and surface cleaning of mechanical parts.

BENEFITS :

- Non-toxic & Biodegradable
- Highly effective product
- Safe on all metals
- Contains a solvent mixture
- Neutral pH
- Effective on stubborn grease

APPLICATIONS

LC-2010 is essential in the workshop as well as in any type of business.

Directions for use LC-2010 can be used pure or diluted (see dilution table below)

| APPLICATION | RATIO |
|--------------------------------------|-------------|
| Mechanical parts and heavy-duty work | PURE to 5/1 |
| Pressure machine | 5/1 to 10/1 |
| Normal cleaning (hard surfaces) | 32/1 |
| Light cleaning | 64/1 |

PRODUCT SIZES:

- 20L = 101610-336
- 55L = 101610-354
- 200L = 101610-581
- 1040L = 101610-582
