

LIBERCHEM

PEROX M

Liquid detergent for cleaning robot brushes.

PEROX M

Liquid detergent for cleaning robot brushes.

Liquid detergent for sanitizing robot brushes. A solution of stabilized hydrogen peroxide and peroxyacetic acid that works with a mild detergent to remove skin and manure soils from brushes. Eliminates cross-contamination between cows and reduces somatic cell counts. CONCENTRATION: 0.2% to 0.5% (2-5 mL/L) of fresh water.

BENEFITS :

- Oxidizing agent to eliminate bacteria
- Peracetic acid to reduce ph on udders and activate peroxide.
- Gentle on the skin
- Mild detergent to remove dirt and manure
- Compatible with all brushes
