IODET

ANTISEPTIC SOLUTION FOR UDDER WASHING

IODET

ANTISEPTIC SOLUTION FOR UDDER WASHING

IODET helps prepare dairy cows' udders and teats for proper hygiene before milking. When used regularly as part of a teat and udder hygiene program, IODET helps prevent and control mastitis by reducing bacteria present on the udders and teats of dairy cows.

BENEFITS :

- Ideal for pre-milking preparation 1.75% titratable iodine
- Mild Phosphoric & Acetic Acid
- Economical 1 oz/20 L.
- NONYLPHENOL FREE*

DIN : 02454521
