

FHC

**CONCENTRATED ALKALINE FOAMING
DETERGENT (NON-CHLORINATED)**

FHC

CONCENTRATED ALKALINE FOAMING DETERGENT (NON-CHLORINATED)

FHC is formulated for use in food plants and for the dairy, swine, beef and poultry industries.

A non-chlorinated, foaming alkaline detergent that remains effective in hard water. It can be used in the food industry and agricultural sectors to clean walls, floors, equipment, work surfaces, trucks, etc. When used with a foam gun, FHC produces a rich, abundant foam that clings to surfaces and traps dirt, ensuring excellent cleaning.

23 ml for 10 L. (2 oz for 7 gal.)

BENEFITS :

- Nonylphenol free
- Good grip
- Chlorine-free
- Easy to dose
- Abundant foam
- Effective degreaser
- Concentrate
- Economic

PRODUCT SIZES :

- 2X10 L. = 107000-326
- 20 L. = 107000-336
- 55 L. = 107000-354
- 200 L. = 107000-581
