ROBOT BRUSH

Robot brushes liquid
detergent cleaner.

ROBOT BRUSH

Robot brushes liquid detergent cleaner.

Liquid detergent for disinfecting robot cleaning brushes. Stabilized hydrogen peroxide and peroxyacetic acid solution that work with a mild detergent to remove soils on skin and from brushes. Eliminates cross-contamination between cows and reduces somatic cell counts.

CONCENTRATION: 0.2% to 0.5% (2-5mL/L) of fresh water.

BENEFITS :

- Oxidizing agent to eliminate bacteria
- Peracetic acid to reduce pH and activate peroxide.
- Gentle on the skin
- Mild detergent for removing dirt and manure
- Compatible with all brushes

SIZE AVAILABLE:

- 104310-336 : 20L
- 104310-354 : 55L
- 104310-581 : 200L
- 104310-582 : 1040L
