MARATHON LC-6401 DISINFECTANT WIPES

MARATHON LC-6401

THE ONE-STEP SOLUTION!

MARATHON LC-6401 are antiseptic-soaked teat pre-milking wipes that help prevent and control mastitis in dairy cows by reducing the bacterial population on the teats. The ingredients used to soak MARATHON wipes dry quickly and eliminate the need for a paper towel to dry the teats before applying the milking machine.

BENEFITS :

- The emollients provide softness to the teat skin and prevent chapping.
- Fast-acting disinfection.
- No residue in the milk.
- Cellulose fiber.
- The wipes are 100% biodegradable.

ACTIVE INGREDIENTS:

Chlorhexidine acetate 0.002% w/v, ethanol 50% w/v, lanolin 2% w/v.

CONTAINS :

2x1200 wipes
Size :23,5cmx20cm

DIN : 02355574
